

A SPLENDID OFFER.

We have made arrangements to club the weekly edition of the *Charleston News and Courier* with our paper at such rates as are unparalleled in the history of South Carolina journalism. The agricultural department of the *News and Courier* will commend itself to the farming community, while its columns are supplied with the latest intelligence from all parts of the world. We are enabled to combine the two papers at a price with in reach of every one, and expect that our friends will seize the opportunity at once. For the small sum of \$2.25 we will send the *Intelligencer* and the *News and Courier* (weekly) for one year, payment to be made strictly in advance. Subscriptions received at any time.

FATAL ACCIDENT.

On Friday afternoon, during the severe gale which prevailed for several hours, a frightful accident occurred upon the plantation of Mrs. D. M. Wynn, residing in the southern part of the county. A large tree, which had been standing for many years, was suddenly struck by a lightning bolt, and the trunk was split in two. The tree fell in the direction of the house, and the trunk struck the roof, which was immediately destroyed. The house was a large, two-story building, and the fire spread rapidly, consuming the entire structure. The family, consisting of Mr. Wynn, his wife, and several children, were at the time in the house. They were all rescued, but the property loss was considerable. The cause of the accident is attributed to the severe weather conditions.

DEATH OF MAJ. GEO. SEABORN.

The death of this estimable gentleman occurred at his residence near Pendleton on Tuesday last, in the 81st year of his age. Maj. Seaborn was widely known as a public-spirited citizen, and was always foremost in the advocacy of whatever tended to the advancement and improvement of the section. He was for many years the editor and proprietor of the *Farmer and Planter*, and was published at Pendleton until 1859, and through his pages he became known as an agricultural writer of great proficiency and practical knowledge. He was always the promoter and advocate of agricultural organizations, and was President of the Pendleton Farmer's Society for a number of years, an active and influential member of the old State Agricultural Society, and for the past ten years an honorary member of the Anderson Farmers' and Mechanics' Association. He was a zealous Mason, and one of the oldest members of the craft in this portion of the State. Thirty years ago he assisted to organize the Masonic Lodge at this place, and was its first Master. His services to the brethren are held in grateful remembrance. Maj. Seaborn held important and responsible positions at various times in his life, and we would be glad to receive a sketch of his career from some of his early friends, who possess the requisite information.

THE REMAINS OF THE DECEASED.

The remains of the deceased were buried at the Episcopal Church in Pendleton yesterday morning with the ceremonies of the Masonic order.

BRIEF MENTION.

The mill dam of Mr. Harrison Tucker was considerably damaged by the heavy rain on last Thursday night.

WE ARE REQUESTED TO GIVE NOTICE.

That the Catholic Church, will hold divine services at the residence of Mr. M. D. Kennedy on Sunday the 25th instant.

WE ARE REQUESTED TO STATE.

That the Union Meeting of the Third District, Twelve Mile River Association, will be held at St. Ignace Church on Saturday before the first Sabbath in April next. The churches composing this Union District are requested to appoint delegates.

THE SCHEDULE OF THE PASSENGER TRAINS.

On the Greenville and Columbia Railroad was changed yesterday. The down train leaves Anderson at 8:35 a. m., which is fifteen minutes earlier, and the up train leaves at 6 p. m., an hour later than the old schedule.

MR. S. H. PREVOST IS ERECTING A NEW RESIDENCE.

On the western portion of town, on the street leading towards Shallow Ford. The style of architecture is unique and pleasing. It is modelled after the German style of cottages on the Central Grounds.

THE STOCKHOLDERS OF THE ANDERSON EDUCATIONAL ASSOCIATION.

Occupied by the Carolina Collegiate Institute, are requested to meet in the Court House on Saturday, 17th of March, on important business. Every stockholder ought to be represented in person or by proxy. The meeting will take place at eleven a. m.

WE ARE REQUESTED TO ANNOUNCE.

That a Hot Supper will be given in the Masonic Hall on next Wednesday evening, 21st inst., for the purpose of raising money to paint the paragon of the Methodist Church. We bespeak the patronage of the community for this praiseworthy object, and feel assured that the arrangements are such as to insure an elegant supper at a moderate cost.

THE FOLLOWING PERSONS WERE INSTALLED OFFICERS.

Of the Bladen County Grange for the ensuing year: J. P. Glenn, W. M.; J. Jamison, O. M.; J. C. Boggs, G. W. B. Pickett, L. J. M. Glenn, T. J. H. Russell, Sec. T. S. Glenn, S. E. C. Jamison, G. M. H. A. Glenn, P. The installation was conducted by W. Russell, and an interesting address delivered by him on the workings of the Grange.

WE ARE REQUESTED TO ANNOUNCE.

That the Anderson Reading and Music Club held an interesting meeting at the residence of Dr. White on Tuesday evening, which was largely attended by young ladies and gentlemen, who have entered with renewed zeal upon the objects of the organization. We are glad to learn their determination to make the Club a permanent success. The next meeting will take place on Tuesday evening at the residence of Mr. John E. Sadler.

ALARM OF FIRE.

The residence of Mrs. Todd, on Main Street, was discovered to be on fire about 4 o'clock p. m. on last Friday. The ringing of the fire bell brought out the citizens in large numbers at once. Believing it was impossible to save the building, owing to the fact that the roof was already on fire and the wind blowing a perfect gale, a number of persons went to carrying everything out of the house. Besides the furniture, everything that could be moved, including doors, sashes and mantels, was quickly removed from the building. In the meantime, the cry for water was raised, and the house was extinguished. The fire was extinguished by the fire company, and the property loss was considerable. The cause of the fire is attributed to a candle which had been left burning near the stove.

MONROE PATRI LOCALS.

James C. Gambrell's smoke-house was entered a few nights since and all his bacon stolen. Presley Hannah suffered a like loss. Rev. R. M. King came near being in the same situation, but a pistol shot frightened his gang off, and his meat was saved. When Chamberlain goes to the Springs, meat-stealing and the like will be put an end to. Rev. Mr. King has so far recovered from his injuries as to be able to resume his duties. The rain last night, the heavy one we have had in several months, caused a break in the dam at Bigby & Davis' mill. County Commissioner Browne was here on Saturday last, looking after two bridges on Broadmouth Creek, reported in bad condition. They will soon be all right. The farmers are all busy preparing for a little more corn and not quite so much cotton. Hurrah for Hampton and big corn crops.

BELETON LOCALS.

We have a splendid school, with an attendance of sixty scholars, under the management of Mr. F. W. Cox and Miss Alice Brown, who are worthy of patronage. Merchants are doing but little, grain being the principal trade. Gardening is behind. The rains of last Thursday night between two negroes—Emory Greer and Harrison Greer—in which the latter was seriously stabbed. We have the building fever in our town. Mr. B. D. Dean's fine residence is now completed. J. K. Breazeale has just finished a spacious and comfortable dwelling. Mr. W. S. Smith is making some additions to his dwelling. Mr. G. W. McGee is preparing to build a large brick house. Mr. A. one of our townsmen, has just returned from Louisville. Report says he is going into business at that place. Wash. McKee owns the finest mules in town, Frank Breazeale the best horse, and Bill C. the prettiest buggy.

ROCK HILLS LOCALS.

Capers Skelton manifests some uneasiness, and thinks he had better let the "malish" and trial justice alone; and says he will never have anything to do with politics again. Cape has done no work since last fall, as anybody knows. Think he had better go to San Domingo. John A. Stevenson has the best field of wheat in this section. By the way, John is a worker. He has cleared and put in cultivation nearly one hundred acres of land in the last four years, by the assistance of his boys and a hired hand. He commenced in the woods, built a dwelling house, a gin house and all necessary out-buildings. Commenced without a dollar in money, and has nearly paid for the place. Rock Hills Grange is not so flourishing as it was when we had a cheap teacher, has commenced a school in the lower part of this township. The school is greatly needed, as we have not had a good teacher in many years. The community should take advantage of the opportunity and build up a first class school in their midst.

TYRO.

JOHN C. GANTT, Esq., is building a new residence.

Dr. W. L. Broyles is repairing his flouring mill. Townville wants a team saw-mill. It is encouraging to note that farmers are giving more attention than usual to the rearing of young stock, thereby economizing the native stock. This is both wise and timely. Trial Justice Fant is an adept in the interest of important creditors. The tax-payers in this locality having rendered unto Hampton the things that are Hampton's, will "see him out," or rather he remains in. "Dr. R. Broyles, Esq., lately resident and merchant at Anderson C. H., is now located on his farm, four miles west from Townville. He is a model farmer and cultivated gentleman, and the community is pleased to have him in its midst. Thursday, 8th, a negro man living on Mr. Wm. Seary's place had his cabin accidentally burned, the flames consuming what few chattels he had. A heavy rain fell Thursday night, 8th, accompanied with light wind and thunder. The following day the wind was very strong and chilling. Townville has one Church, one Academy, three stores, two doctors of medicine, and the usual complement of shops, blacksmith, shoe and harness shops, and all of which institutions, professions and industries enjoy a reasonable measure of prosperity.

A GARD.

In behalf of my mother, I desire to return my sincere thanks to the citizens for their assistance on last Friday. If it had not been for their energy her residence would undoubtedly have been destroyed.

JOHN W. TODD.

The Important Question.

Of all loathsome diseases Catarrh stands pre-eminent. It renders its victim as disgusting to himself as to others. And the most humiliating of all the consequences, that his presence is offensive to those around him. If any disease deserves the name of "vulgar" it is this. Dietetic errors and the follies which fashion imposes upon us tend to foster and disseminate it. To the afflicted it is a curse, and to the community a nuisance. It is a disease which has no cure, unless it be cured by the use of the "Great Peppermint Cure." This medicine has been prescribed by a potent and never-failing remedy. It has given explicit rules for the treatment and preservation of the spiritual and moral man, but he is silent in all matters relating to the physical man. It would be a disgraceful neglect of duty, if His beneficent character to suppose that He has afflicted the greater portion of humanity with an incurable disease. The day of "vulgar" is past. The God of Christianity is a God of Love, of Mercy. His message is "good will to all men." The earth and all contained therein was intended to be a blessing to man's wants; and surely he has no greater wants than remedies for his infirmities. Science is rapidly proving that our earth is fitted to supply man's physical needs. Medicinal plants are constantly being discovered and new properties developed from them. The "Great Peppermint Cure" is a most potent remedy yet discovered in Dr. S. C. Catarrh's Remedy. Its efficacy has been proved in many thousand cases with the most rapid and permanent cures. It is a powerful, pronounced medicine, readily yielded to it. In confirmed, or obstinate cases, it is a most powerful remedy. It should be taken in connection with the use of the Catarrh Remedy. Full particulars in Pierce's Memorandum Books. They are sent free by deposit.

LATEST BY TELEGRAPH.

THE STATUS quo MAINTAINED IN COLUMBIA.

Proposition for a New Election in South Carolina and Louisiana.

Republicans win New Hampshire.

COLUMBIA, March 14, 1877. There has been nothing of special interest transpiring about Columbia for several days past. All parties seem to be waiting upon the administration at Washington to define its position. The election yesterday in New Hampshire as far as heard from revealed favorably to the Republicans by majorities varying only slightly from the election last year.

A private soldier who killed another soldier in New Orleans yesterday was turned over by the military authorities to Nichol's chief of police, which action excites considerable comment.

Stone will be re-nominated for District Attorney of South Carolina. The fight is between him and Wm. E. Earle, of Greenville, and it is probable that Stone will be confirmed.

A number of informal caucuses have been held during the past day or two by the Southern Republicans in Washington.

With only a few exceptions, they have expressed a determination to do everything in their power to prevent the recognition of the Hampton or Nicholls governments, and should they fail in their efforts, as is now believed most probable, it is announced that they will change the political complexion of the United States Senate by voting against the admission of Kellogg from Louisiana and Corbin from South Carolina. Such is their declaration at present, which may be accepted with some grains of allowance.

The latest reports from Washington, which were received at noon to-day, state that Senator Patterson (Honest John) called upon the President this morning, and urged the adoption of a plan for a settlement of existing troubles in South Carolina which involves a new election. Patterson submitted this plan as the best solution of pending difficulties. Blaine likewise approves of this plan, which is alleged originated with Chamberlain.

The President was subsequently called upon by Ex-Senator Robertson and Congressman Wallace, of South Carolina, both of whom represented that a new election would be ruinous to the industrial interests of the State, and suggested that the difficulties could best be solved by withdrawal of troops from the State House, when the people would adjust the matter for themselves.

President Hayes received the latter gentlemen quite favorably as natives of South Carolina, but did not commit himself one way or the other.

The Republicans will assuredly attempt to secure a new election in both Louisiana and South Carolina, and it is painfully evident that a speedy settlement of affairs in these two States can hardly be expected, if dependent upon the action of the Federal Administration.

C. McK.

THE DRAINAGE QUESTION.

MESSRS. EDITORS: Doubtless the drainage of our swamps and bottom lands is a matter of high importance to the country at large. It would add to the wealth and prosperity of the land owner; it would contribute much to the general hygiene of the whole people. These two propositions are conceded by all thinking men to be facts. But the mode to effect the desired end may not be very generally agreed upon. A drainage law, like all other laws, should be founded upon principles of substantial justice, and be consistent with established usage and the precedents of legislation. Such law should not impinge upon individual rights. Far better suffer temporary inconveniences which may be abnormal and merely incidental, than to hastily enact remedies that may entail greater evils. Pestilence is periodic and prevails on the mountain top as well as in the valley. You cannot quarantine cholera out of Calcutta or yellow fever out of New Orleans.

Well digested law, an endorse not only what is legitimate of the past, but also what may not conflict with probable future interest, and so at once assume the character of permanency. We certainly have had within the last decade enough of reconstruction, revision and legislation. Laws passed in haste and ignorance; laws partial, conflicting, superfluous, redundant, now stand upon our statute books. The Drainage Law for Anderson County partakes of the characteristic perhaps of all these classifications. It is a nullity and cannot possibly escape abolition either by the courts or the Legislature. But in its room we will have something far better, and that will be a law and just manner administered.

It is the Drainage Law of 1869, and of general application to be amended for remedy. With little extension this Act can be made to subserve the end, and confiscate no property or transfer upon the rights of the citizen. Every advanced farmer, every enlightened man will hail with hearty endorsement any enactment looking forward to the improvement of the salubrity and development of the agriculture of the country. A sound conservatism and an observance of constitutional landmarks, only can extricate from present complications, give deliverance from the follies and recklessness of the late past, and secure and perpetuate the full measure of our liberties.

RURAL.

The loss of the various insurance companies by the recent fire in Camden was \$28,000.

One thousand and fifteen colored men of Barnwell County had paid the Hampton tax, up to Monday night last.

Mr. Wm. L. Dixon, of Bishopville, Sumter County, lost three children in one week. Diphtheria.

Top. T. J. Robertson has written to Columbia his purpose to pay his taxes to the Hampton government on his return from Washington.

Col. A. C. Haskell is returned to Columbia after a month's sojourn in Washington, where he has been working in behalf of the constitutional government.

— The Columbia correspondent of the New York Herald sums up the unequivocal and unanimous conclusions of the average South Carolinian as follows: "That they will submit to no other civil State government but that of Hampton is the head; that under no circumstances will the Chamberlain government be tolerated here; that it is utterly useless to attempt to settle the difficulties in this State by means of a compromise commission, as proposed, as on their part there is nothing to compromise; that they have resolved to pay no taxes to any other government than the Hampton's; and that if that government is not recognized a standing and powerful army will have to be kept here to endeavor to keep the peace alone."

OBITUARY.

EZEKIEL S. NORRIS departed this life at his residence on Mountain Creek on the 28th February, 1877, at the age of 83 years and nine days.

He spent his long life in rural pursuits, and "like a sheaf of corn fully ripe he lay ready to be gathered into the garner of the Lord." His last sickness was short, but he leaves ample evidence that he was ready to depart and be with the Lord. Early in life he professed Christ as the only hope of salvation, and exemplified the sincerity of that profession by a consistent christian walk through life. He was social, yet modest and retiring, respectful, but firm in matured convictions. Industry, truth, justice, charity, gentleness, kindness and benevolence were illustrated in his daily action and conversation. He leaves three children and a disconsolate widow, with many warm friends to mourn his loss. Four children have preceded him to the grave to welcome his advent at the gate of Heaven. For many years he was an acceptable Ruling Elder in the Roberts' Presbyterian Church, where he delighted to worship. "He sleeps in Jesus and is blest."

False Impression.

It is generally supposed by a certain class of citizens, who are not practical or experienced, that Dyspepsia can not invariably be cured, but we are pleased to say, that Messrs. A. B. TOWERS, Anderson, S. C., have cured Dyspepsia by their Liver Complaint in all its forms, such as Sour Stomach, Costiveness, Sick Headache, palpitation of the Heart, low spirits, &c., &c. Out of 30,000 dozen bottles sold last year, not a single failure was reported, but thousands of complimentary letters received from Druggists of wonderful cures. Three does will relieve any case. Try it. Sample Bottles 10 cts. Regular Size 75 cts. For sale by Wholesale and Retail.

Simpson & Sadler are giving away a handsome book entitled "Pearls for the People," containing much valuable information and many interesting articles. It also contains a history of the discovery of the "Hepatine," for diseases of the liver, dyspepsia, constipation and indigestion, &c., and gives positive assurance that when the Hepatine is used it cures a permanent and lasting cure of these diseases, which prevail to such an alarming extent in our country. Take the Hepatine for all diseases of the liver.

Advice Gratis.

The Hon. Alexander H. Stevens says "The Globe Flower Cough Syrup has proven a most valuable remedy to me." Gov. James M. Smith, of Georgia says: "I shall always use it with perfect confidence, and recommend it to the public as a remedy which will afford that satisfaction experienced by me and mine. It excels everything for colds, coughs and obstinate lung affections."

Ex-Gov. Brown, of Ga., says: "He finds the Globe Flower Cough Syrup a most excellent remedy." Such endorsement by our great and good men deserves the attention of the afflicted. Those suffering from coughs, colds and lung affections should use the Globe Flower Cough Syrup. It will positively cure consumption.

For sale by Simpson & Sadler.
